### Personal Summary

---

I am a highly motivated and hardworking individual who switched career from hospitality and retail to software development (2021) two years ago, after completing a year-long techpreneurship program with Semi-Colon Africa a top IT training institute in Lagos Nigeria. I currently Seek to work with a top firm to further develop my skills . One of my life goals is to become a top software developer, tech enabling micro, small and medium sized businesses in Africa and finding solutions to numerous challenges confronting Africa. I enjoy reading, travelling and cooking.
